INSTRUCTIONS FOR THE PREPARATION OF RESEARCH SYNOPSIS FOR Ph.D. SCHOLARS

1. Introduction -

The General Introduction should be related to the necessity and utility of the proposed research work. Importance of the proposed research work should be highlighted.

2. Literature Review -

The Second portion should be related to the literature review including the recent development already carried out by various authors /Researchers in the related Field on which the Research Scholar(s) wanted to carry out his/her Research. The review of literature should lead to synthesis & identification of research gap.

3. Objectives ,Scope and Limitations of the present Research -

In this section the scholar is supposed to give the objectives (number wise) of the Research work related to his/her proposed Ph.D. thesis. She/he is also supposed to give the scope/limitations of the Research. In this section “ Research Hypothesis” is of utmost importance .

4. Research Methodology/ Requirements of the Research Work -

This section should be précised, focused and include the following

- Statement of Research Problem
- Research Design
- Sampling Design
- Data Collection strategy (Primary & Secondary methods)
- Planning and analysis of Data
- Plan about time scheduling of Research

5. References/Bibliography:

All latest references/ Bibliography which are referred in the text of the manuscript should be given in chronological order.

- A. References must include the citations from review of literature.
- B. Bibliography must include the citations from journals, books, magazines etc. Both must follow APA Style or scientific/engineering methodology (e.g. JEEE method)

Note : Please use suitable numbering scheme in the synopsis, including references.
